COME JOIN OUR TEXSTAR FAMILY!

TUMBLING & TRAMPOLINE TEAM

TexStar Tumbling & Trampoline Team is a specialized program designed for athletes who want to develop their skills in both power tumbling and trampoline in a focused, high-energy environment.

Athletes train on rod floor and trampoline, building progressive skills while improving strength, control, air awareness, and technique specific to the sport of Tumbling & Trampoline (T&T).

This program practices twice per week and includes in-house themed meets hosted at TexStar, giving athletes the opportunity to perform, gain experience, and build confidence, without the commitment of a travel team.

Led by an experienced coaching staff, this program is ideal for athletes looking for a more structured and challenging experience beyond traditional tumbling classes.

Our Tumbling & Trampoline Team is open to athletes ages 4 and up for both girls and boys, with skill levels ranging from **beginner through back and front flips**. Athletes will compete in both Tumbling (Floor) and Trampoline.

This program is separate from our All Star Cheer and All Star Tumbling programs.

T&T TEAM EVALUATIONS

Anyone interested in joining the TexStar Tumbling & Trampoline Team must attend evaluations and complete all required paperwork online.

All paperwork must be fully completed and signed prior to evaluations. Athletes will not be placed on a team until all forms have been submitted.

The evaluation process allows our staff to assess each athlete's current skill level, as well as their ability to listen, follow directions, and respond to coaching. An athlete's coachability and attitude are key factors during this process.

Not all athletes will be placed on the team. Team placement is based on space availability, age, skill level, and coachability to ensure the best possible training environment for each group.

Skills can be taught, but a willingness to learn, strong work ethic, and a positive attitude are what set athletes up for success.

Following evaluations, athletes will be placed into groups based on age and skill level to ensure the best training environment for each athlete.
